Details:

Located just 250 metres from the lively centre of Santanyí, this modern, fully renovated townhouse combines contemporary living with the charm of traditional Mallorcan architecture. The property occupies a plot of approximately 262 m^2 and offers a total built area of around 222 m^2. Its modern design is complemented by numerous original features that have been carefully preserved, giving the house its distinctive character.

A particular feature is the entrance area: from the street, you first enter a charming small patio, which leads to the hallway and staircase. The ground floor continues with a spacious living area. Opposite is the open-plan kitchen with an integrated dining area and direct views of the private garden, creating a pleasant and functional living space.

This floor is completed by a guest toilet and a practical storage room. The private garden provides a secluded outdoor space in the heart of the town and features a swimming pool with a water surface of approximately 18 m^2.

The upper floor comprises two spacious bedrooms, each with its own en-suite bathroom. One of the bedrooms has a private balcony overlooking the garden. The second bedroom also features a separate small room, which is ideal for use as a home office or workspace.

The townhouse also offers modern technical features for year-round comfort. These include air conditioning and underfloor heating powered by an energy-efficient aerothermal system. The property's good insulation further contributes to energy efficiency and overall living comfort.

A well-balanced combination of modern comfort, traditional architectural character and private outdoor space, in a central location in one of the most attractive villages in the southeast of Mallorca.
