Details:

This charming property sits on a fully enclosed plot of approximately 2,000 m² and offers rural privacy combined with versatile use. It is composed of two independent buildings – a main house and a guest house – each with its own private outdoor areas. Over the years, the property has been extended and restructured, providing significantly more living space than the officially registered area of under 60 m².

The main house features a spacious living and dining area with a wood-burning stove, which flows seamlessly into an open kitchen. Adjacent to the kitchen is a cosy lounge area with another fireplace – a perfect spot for relaxing or reading. A glass door leads out to the covered terrace and into the landscaped garden, which includes a well-maintained lawn and a refreshing pool area.

In the private section of the main house, there is a children's bedroom, a separate shower bathroom with a laundry area, and a master bedroom with its own en-suite bathroom. Additionally, there is an extra room with an independent entrance that is currently used as an office, but could also serve as a guest room since it has its own shower bathroom.

The property is powered by a modern solar energy system located in an external technical room, making it fully energy self-sufficient.

At the upper end of the plot, beyond the pool and garden, is the detached guest house. It comprises an open-plan living, dining, and kitchen area with a fireplace, a bedroom, and a shower bathroom. A private terrace with barbecue area completes this independent living space, ideal for family, friends, or guests.

Further highlights include two barbecue areas, four car parking spaces, and a rooftop terrace with spectacular panoramic views of the surrounding countryside and the Tramuntana mountains.
