Details:

This finca property for seasonal rental comprises two independent houses, each with its own pool, and is located near Capdepera in the north-east of Mallorca, around 10 minutes' walk from Cala Agulla, one of the most beautiful beaches in Mallorca. On a plot of approx. 27,873 sqm, the property offers a private, spacious setting for seasonal stays from a minimum rental period of 31 days, where work, retreat and relaxation can be combined. Rental prices vary depending on the season and length of stay. Restaurants, harbors, regional infrastructure and four golf courses are all within a short driving distance.

The entire complex has a construction area of approx. 765 sqm and a living area of approx. 540 sqm and comprises a total of 15 rooms, including 8 double bedrooms, 8 bathrooms (4 of which are en suite) and 3 kitchens. The structure is suitable for private seasonal rentals as well as for stays by families, employees or teams requiring space, tranquillity and clear organization.

The main finca forms the center of the property and offers spacious living and lounge areas, several terraces, garden areas and a large pool. Internally, it is divided into up to five clearly separable living units, each with its own access. Three separate gates (main finca, guest house and a separate service and access gate) guarantee privacy. The room structure also offers space for workshops, seminars or team formats in a quiet, professional setting.

The separate guest house with two bedrooms and two bathrooms complements the property with an independent living unit and enables pleasant, parallel use.

Both houses are fully equipped and can be used all year round, with air conditioning and heating systems: Oil central heating in the main finca and pellet heating in the guest house.

Additional services include cleaning, a private chef and an airport transfer in a high-quality large vehicle for up to six people.

The sale of the property is currently being prepared and is not yet on the market. Please contact us for further information and current seasonal prices.
