Details:

This special building plot is located in the middle of the gently rolling hills in the heart of Mallorca, just 3 km from Sineu. Surrounded by unspoiled nature and absolute tranquillity, it offers a magnificent view of the Puig de Sant Nofre.

This is the ideal location for anyone looking for privacy, space and an authentic Mediterranean lifestyle - far away from the hustle and bustle of the coastal regions and yet centrally located on the island.

The plot has a buildable living area of 322.42 m² and a maximum construction area of up to 967.26 m² including terraces, outdoor areas and pool. This opens up plenty of scope for the construction of a spacious detached house with extensive terraces and garden areas. There is currently no mains electricity, but a well license has been applied for - ideal for a sustainable, self-sufficient living concept in harmonious connection with nature.

Location & surrounding area:

Sineu is considered the geographical center of Mallorca and is located in the Es Plà region. The town has a direct train connection to Palma and has around 4,000 inhabitants. Architectural sights include the Nuestra Señora de los Ángeles parish church and the Convento de las Monjas monastery. A special attraction is the traditional weekly cattle and craft market, which attracts visitors from all over the island and is still one of Mallorca's most vibrant traditions.
